**FOR IMMEDIATE RELEASE**

**RE: McMinnville Fire Department Election Result Statement**

Based on initial positive results, we want to say thank you to the voters of McMinnville and the McMinnville Rural Fire Protection District for approving the creation of the McMinnville Fire District. Our goal as your fire and emergency service providers is to serve this community with the best possible response and care. By establishing the McMinnville Fire District, we will be able to improve response times and provide an operational fire and medical capability to better meet national standards.

Once the results are final, we will look forward to the important work of getting the district operational and improving service for all our residents. This likely result was a critical step in strengthening our local health and safety, and an important show of support for the first responders who serve our community – thank you.
